

## HANCE AND WIFE ARE BURIED TODAY

Victims of "Vengeance Murder"  
Laid to Rest as Coroner's Inquest  
Nears End at Muncie

### TWO SLAYERS TO BE NAMED

"One Arm" Wolfe Maintains Inno-  
cence and His Lawyers Are Build-  
ing up a Perfect Alibi

Muncie, Ind., Aug. 18.—(U.P.)—In a little country cemetery, encroaching on the small farm home, Ben and Mary Hance were buried this afternoon.

As their children say, "such is the reward for helping the law" for it was because Hance "squealed" on Gerald Chapman, prince of bandits, that he and his wife met their death here at the hands of George "Dutch" Anderson and Charles Wolfe.

The coroner's inquest nears completion and it is indicated that Anderson and Wolfe will be named as the murderers. Wolfe maintained his innocence and a perfect alibi is being built up by his attorneys.

The mystery of the red ear has been solved to the satisfaction of local police, who said it was driven by an Indianapolis attorney and his two sons. The lawyer, police say, is afraid of revenge of the gang, and will not make known his identity.

Fear that vengeance of Chapman's gang might strike down other victims in Muncie caused authorities to exercise extreme precautions in investigating the murder of Hance and his wife.

George Anderson, pal of Chapman, is hunted throughout the country and Charles "One Arm" Wolfe, Muncie police character, is held in default of \$100,000 bond as a suspect in the double killing.

Great care was taken to protect witnesses appearing at the inquest into the death of Hance and his wife from possible violence by the Chapman gang.

Newspaper men were excluded from the inquest and identity of the witnesses of the substance of their testimony was not revealed.

It was known, however, that the inquest witnesses included three men from Yorktown, near Muncie, who said they saw Wolfe and a man resembling the description of Anderson in Yorktown a short time after the murder.

Police Chief Randolph said several new witnesses had strengthened the case against Wolfe. It was indicated a grand jury indictment against him would be sought after the inquest.

## WEBSTER RECEIVES A THREATENING LETTER

Superintendent of Protective Division of Indiana Bankers Association is Warned

### LETTER SIGNED "ANDERSON"

Indianapolis, Ind., Aug. 18.—(U.P.)—Harry Webster, Indianapolis detective, today received a threatening letter purported to be from George "Dutch" Anderson, member of the outlaw gang headed by Gerald Chapman.

"Kine comes first, then you," the letter read. "You had better make your peace with God, 'in town'."

The letter was signed "Dutch" and was mailed in Indianapolis. Webster, who is superintendent of the protective division of the Indiana Bankers' Association, has been investigating activities of a cove of bank bandits whom he says was headed by Anderson.

The "Kine" referred to in the letter to Webster is apparently, W. J. King, a detective at Columbus, O.

King aided in the arrest of one of Chapman's men two years ago and has received within the week two letters signed "Dutch" and threatening him with death.

Anderson is wanted at Muncie, Indiana for the murder of Ben Hance and his wife, who turned Chapman over to authorities last January.

## MUST REMAIN UNTIL

Stephenson and Aids Will Not Try  
to Gain Freedom on Bond

Indianapolis, Ind., Aug. 18.—D. C. Stephenson, former grand dragon of the Indiana Ku Klux Klan, Earl Klenck and Earl Gentry charged with the murder of Miss Madge Oberholtzer will remain in jail at Noblesville until October at least.

This was made certain today when attorneys for the defendant announced no further legal steps in the case would be taken until October. The three men have been in jail since April 20.

## FORMER CHURCH EXECUTIVE HERE

The Rev. John Mann Walker of  
Evansville Visits Old Acquaint-  
ances in the Rotary Club

### BOY CAMPERS ARE GUESTS

Express Appreciation at Being Per-  
mitted to Attend Camp Crosley—  
Weekly Meeting Held

The Rotary club had as guests today seven Rush county boys who attended the Kiro camp for boys at Camp Crosley, on Lake Tippecanoe, last month, and also entertained other visitors. The club also heard another report on the annual convention of Rotary International held at Cleveland, O., in June—this time from H. B. Allman, who was one of three Rotarians attending.

The Rev. John Mann Walker of Evansville who was a member of the club while district superintendent of the M. E. church and lived here, stopped off in Rushville today while enroute home from Lake Webster, together with his family, and renewed old acquaintances with Rotarians. He spoke most entertainingly of his experiences at Lake Webster where he delivered a series of addresses at the Epworth League Institute of the northern Indiana conference, M. E. church. Mr. Walker also gave some of his impressions of his new home.

W. O. Feudner asked for a good delegation from the club to the group outing at Jeffersonville next Tuesday. Hugh Mauzy described meetings of the New York Rotary club he recently attended and E. R. Casady told about a meeting of the Chicago club at which he was present.

John Neutzenhelzer and Raymond Jones acted as spokesmen for the boys who were guests of the club and expressed their appreciation at being permitted to spend two weeks at Camp Crosley. Other boys present were Tom Green, Charles Davis, Charles Foster, George Davis and Robert Danbensneck of Milroy. The eighth boy with the Rush county group was Wayne Houston of Richmond, formerly of this city.

Other guests at the meeting, who were introduced to the club, including Miss Margaret Bell of this city and Hubert Tate, who has accepted a position here and will move from Louisville, Ky., his former home.

Mr. Feudner also stated just before the meeting adjourned that he believed one of the boys in the Rush County Boys' Corn club, for which he is sponsor, had the tallest corn in the county. He averred that some of the stalks are as tall as fourteen feet and that he found one ear of corn ninety-two and a half inches above the ground, and measuring twenty-nine inches from the stalk to the tip.

## MAY ABANDON EXPEDITION

McMillan Arctic Naval Expedition  
May Turn Back South

Washington, Aug. 18.—The McMillan naval expedition in search of an undiscovered arctic continent, because of adverse weather conditions, in all probability will be abandoned this week, according to indications here today.

A radio dispatch was sent to Lieut. Commander Byrd, leader of the naval flyers, by secretary of the navy Wilbur, asking for a report on weather conditions and whether Byrd believed it was worth while to continue the attempt.

## TO SELL HOMES ON A SMALL PAYMENT

R. L. Tompkins and T. L. Heeb An-  
nounce Purchase of Lots in Bel-  
mont Addition for This Purpose

### TWENTY-SEVEN AVAILABLE

Model Cottage to be Built at Once  
and Will be Used as Office in the  
Sale Campaign

R. L. Tompkins of the Pinnell-Tompkins Lumber Company and T. L. Heeb, secretary of Building Association Number 10, announced today the purchase of all of the remaining unsold lots in Belmont addition, which includes 27 building lots. It was stated that neither the association or the lumber company was interested in the transaction, but was confined to the two owners, who will dispose of the lots.

The purpose is to help those who have a small down payment, to secure a home, and all lots, regardless of location, are offered at the same price, with the buyer to make his own selection. The new owners stated that there were some exceptionally good sites, at the low figure asked.

There are now four houses under construction or completed in the addition, with E. B. Williams, contractor, in charge of the work. It was stated also that he has no connection with the lot sale, other than that of a contractor, and any other contractor is agreeable to Mr. Tompkins and Mr. Heeb.

At least 40 or 50 houses are needed to house new families for the Endres-Tompkins furniture factory, it was stated today, and also to relieve general housing conditions. The new lot owners stated today that construction would be made at once on a model cottage on one of the lots, to serve as an office room, and also give prospective purchasers an idea of the type of cottage best needed.

## TELEPHONE OUTING SET FOR WEDNESDAY

All Employees of Rushville Co-Oper-  
ative Company and Families to  
Attend at McCoy Lake

### PLANT WILL RUN AS USUAL

All of the employees of the Rushville Telephone company, together with their families, will join with the other members of the East Central Indiana Telephone association for the association's summer outing at McCoy lake, east of Greensburg, Wednesday.

The Rushville telephone building will not be locked up and the key thrown away for the day, however, as former employees have been enlisted and will operate the plant for a day. The service will go on as usual.

Each family is expected to take food and a basket dinner will be served at noon. There will be contests for the operators, with prizes, and refreshments will also be provided by the association.

A crowd of approximately 500 people is expected at the picnic, according to George Watts of Knights-town, president of the East Central Association. A. C. Woodard, manager of the Decatur County Independent Telephone company of Greensburg, is in charge of the local arrangements for the outing.

Last year the outing was held at Flatrock cave and the year before at Pendleton.

Some of the directors of the Rushville company are planning to attend.

Elkhart, Ind., Aug. 18.—Charles Greene, 85, a former mayor of Elkhart and former treasurer of Elkhart county, died here late yesterday.

## GERTRUDE SCOTT FILES SUIT

Alleges Cruel Treatment and Failure  
to Provide in Complaint

A complaint for divorce was filed today in the circuit court by Gertrude Scott against Russell Scott, alleging cruel treatment, and failure to provide.

The couple was married July 18, 1922 and separated May 12, 1925, according to the complaint. She charges that he had failed to clothe her during their married life, and had compelled her to seek employment. She also alleges that he called her mother vile names, and accused the plaintiff of being intimate with other men. The couple resides in this city, and are colored people.

## TRI-COUNTY CAMP DOWN TO ROUTINE

Boys' and Girls' Club Summer Out-  
ing Gets Under Way at Walnut  
Grove, Shelby County

### MORE THAN 300 IN CAMP

Thursday Will be Rush County Par-  
ents' Day at Camp and Large  
Number are Expected

The tri-county boys' and girls' club camp was down to camp routine today, following the formal opening at Walnut Grove, Shelby county, Monday evening, when a picnic lunch was served and the campers set in the camp in order so that the daily program could be started this morning.

Considerable time in each day's program is devoted to the study of agriculture and home economics.

More than three hundred boys and girls are attending the camp. The Shelbyville Democrat says that such a happy group of boys and girls had never been seen, as were these campers, when they reached camp Monday afternoon.

On Thursday afternoon Miss Neva Stephenson, assistant state club leader from Purdue, will conduct a special class for women who have been interested in promoting girls' clubs in their respective communities.

It is hoped that Thursday will be Rush county parents' day at the camp. Those parents attending are urged to provide their own picnic dinner as the three cooks are expected to prepare only the camp menu during the week. Last year during the camp the number of parents visiting surpassed 300 more one day.

G. O. Stanley, agricultural agent of Decatur county, and fifty boys and girls of that community reached the camp about two o'clock and soon were on friendly terms with the other campers. H. D. VanMatre, agricultural agent of Rush county, and his crowd of seventy-nine Rush county boys and girls were also early to arrive at the camp.

The first of the daily sunset services at the camp was conducted Monday evening and opened the formal program that has been drawn up for the camp. The Rev. L. O. Richmond, pastor of the First Presbyterian church of Shelbyville spoke. On Tuesday evening the speaker at the service will be the Rev. J. S. Riser, pastor of the Fairland Baptist Church. The speaker for the sunset hour on Wednesday evening will be the Rev. J. C. Overman, pastor of the First Baptist church of Shelbyville, and on Thursday evening the Rev. L. T. Freeland, pastor of the First M. E. church also of Shelbyville, will conduct the service.

The Shelby county enrollment at the camp continued at the 163 mark today, as a few boys and girls that joined the crowd today made up for those who failed to appear at the opening this afternoon. The revised list of attendance may show some changes, but the number will be about the same. H. D. Jackson, Shelby county agricultural agent, who is director of the camp plans, expressed complete satisfaction with the start of the camp and stated that the tri-county event will be one of the best of the twelve club camps that are being held in the state this year.

## COUNTY TEACHERS ANNOUNCED TODAY

Preparations are Rapidly Being  
Made for Opening of Township  
Schools September 7

### SEVERAL CHANGES NOTED

Beginning of Fall Term Will Mark  
Passing of One Room Buildings  
in Rush County

The list of teachers for the schools of Rush county, has been compiled by B. D. Farthing, county school superintendent, and arrangements for the opening of the new school year are rapidly being made. All schools of the county will open September 7, and the Rushville city schools will open a week later.

Several changes have been made in the list of teachers and principals of the various schools, caused by resignations during the summer months. The list as given out today, may be subject to slight changes, in case some of those signed up, may withdraw on their contracts before the school begins.

With the opening of the new school term, passes the one room buildings in the county, as the last three were abandoned at the close of the school term last spring, pointing the way rapidly toward the consolidated township schools.

The complete list of teachers for the schools is as follows:

## EVANSVILLE GIRL TO TEACH ENGLISH HERE

Florence Madden Selected for Place  
on High School Faculty to Suc-  
ceed Dorothy Hamrick

### JANET DEAN ALSO EMPLOYED

Miss Florence Madden of Evansville, Ind., has been engaged as instructor in English in the senior high school for the next school year to succeed Miss Dorothy Hamrick, who resigned to accept a position in the Anderson high school, it was announced today by H. B. Allman, superintendent of schools.

Miss Madden is a graduate of Indiana university and has an A. B. degree. She has had eight years experience as a teacher and last year taught in the Linville, Ind., high school. She was highly recommended by Dr. Kohlmeier, professor of history at Indiana university, and by the teachers' placement bureau.

Another vacancy has been filled on the high school faculty with the engaging of Miss Janet Dean, daughter of Dr. and Mrs. D. H. Dean of this city, as instructor of English in the junior high school, to succeed Miss Esther Anderson, resigned.

Miss Dean has had some teaching experience and last year was instructor in Latin, English and music in the Raleigh high school.

No principal has been engaged to succeed E. B. Butler, who resigned several days ago to accept the position as assistant state school inspector. The Rushville school officials have several men under consideration for this position and expect to make a definite selection within a few days.

## BUSINESS STANDS AT ABOUT NORMAL

Evans Woolen, Indianapolis Banker, Declares Good and Bad Business is Well Balanced

## SUMS UP COMPARISONS

Points Out Many Things That Are Illustrative of the Balancing Factors in Business Now

Indianapolis, Ind., Aug. 18—(U.P.)—The good and the bad in present business conditions seem nearly balanced, according to Evans Woolen, president of the Fletcher Savings and Trust Co., of Indianapolis.

"We are going along at what is called a 'theoretical normal,'" Mr. Woolen told the United Press today in a survey of business conditions.

"The annualist shows business just now exactly on the normal line taking as normal the average of the last twenty years or more, a period in which business has gone forty per cent above the line as in 1917 and an equal amount below as in 1921.

"Illustrative of balancing factors in present business conditions, these facts may be mentioned. Revenue ear loadings for the year are fifteen per cent above normal while the number of active blast furnaces is twenty per cent below normal.

"Great Britain has successfully resumed gold payments and Germany seems on the way to economic reestablishment while France struggles with a debt of fifty billion gold dollars.

"Prices, higher by a tenth than a year ago, seem fairly stabilized at something like a quarter more than in deflation, a third less than in inflation and a half more than at the beginning of the war.

"Prices for agricultural commodities and those for other commodities have come pretty well into equilibrium. Indiana is smiling at the prospects of the best corn crop in several years. Wheat and oats have produced surprisingly good yields considering the drought and late freezing in the spring. Country banks are optimistic, expecting that many 'frozen' loans will be liquidated out of corn and hog sales.

"General credits are easy for those entitled to borrow. While the retail trade situation is not about normal surplus stocks have been reduced and manufacturers are getting adjusted to hand-to-mouth buying and to the burden of our over expanded industrial plant.

"Europe, most important customer for our exports, is increasingly able to buy.

"The Indiana mining fields are suffering from the general malady of the mining industry throughout the country—too many mines and too many miners. After the soft coal strike of 1922 there were approximately twice as many mines and miners as the nation required for an adequate supply of coal.

"Strip mining, at a greatly decreased cost over shaft mining, is producing at least 10,000 tons of coal a day in Indiana.

"Those familiar with the industry fear that the shaft mine operator may have to surrender his steam-coal business to his strip mine competitor unless he can convince the buyer that the quality of his tonnage exceeds that of the coal more cheaply mined.

"The larger, well-financed, older shaft mine operations in the state are reported working at not more than 40 per cent of capacity.

"It would seem that we may look into the second half of the year confidently, expecting business in undiminished volume, continuing easy money and earnings restricted by increasingly severe competition."

## REVIVAL STARTS AT MANILLA

Being Conducted by the Rev. A. Gwyn, District Evangelist

Large crowds are attending the revival at the First Christian church in Manilla, which opened Sunday and will continue for two weeks, closing on Sunday, August 30.

The sermons are being delivered by the Rev. A. Gwyn, district evangelist. The subject of Monday night's sermon was "The Key to the Kingdom."

Every afternoon the Rev. Mr. Gwyn has been holding a "Booster Chorus" in which children from seven to fifteen take part. Wednesday night the Boosters will have charge of the entire program. Next Saturday night will be "Eunice's Night," all farmers are requested to come dressed in overalls and the women to wear gingham dresses. The church will be decorated with farm products. Monday night will be "Men's Night," the men will have charge of the program and a banquet will be held in the church basement in their honor.

## LOCALS

## Rapidly Recovering

Mrs. Harvina Gray who has been seriously ill for the past three weeks, is rapidly recovering.

## Operation For Appendicitis

Mrs. Oliver Garrison of Pearl street, was operated on Monday morning at the Dr. Sexton hospital for emergency appendicitis. Her condition is satisfactory.

## Workmen Team To Practice

The degree team of the Modern Woodmen is urged to meet at the hall promptly at 8 o'clock, Thursday night for practice, and assignment of parts for the open air class adoption to be held at Memorial Park in the near future.

## Two At Green's Hospital

Miss Kathleen Willey, daughter of Mr. and Mrs. Harry Willey, of this city, and Mabel Derringer, daughter of Mr. and Mrs. Herbert Derringer, of near Homer, underwent operations at Dr. Frank Green's hospital this morning for the removal of their tonsils and adenoids. Both patients are recovering from their operations rapidly.

## To Discuss Tax Budget

The city council will meet tonight in regular session, and among the business matters to come before them will be the discussion on the 1926 tax budget, as the finance committee of the council was expected to have the report ready for the meeting tonight. The council chamber has undergone extensive re-decorating since the last meeting, with the walls being newly papered, the wood work painted, new chairs to replace the old benches, and a general clean-up of all files.

## Fire Apparatus Back Home

Two pieces of fire apparatus, which have been stored in garages since the remodeling began on the fire station early last spring, were returned this morning to their places at the fire station, and are again ready for service. The chemical truck and the steam pumper, found their way back, as the remodeling is well under way, and room for them has been made in their old places.

## No License Plates; Pays Fine

When Mrs. Curt Hester of this city started out for a drive Monday, she had no idea that within a few hours she would be pleading over the telephone for someone to pay her fine so that she would escape being put in jail.

She was driving a car from the Buick agency and failed to note that it carried no license plates. But the eagle-eyed Greenfield police did not overlook the fact and she was called on to explain. Her explanation wouldn't satisfy the Greenfield police and the fine and costs amounted to \$15.

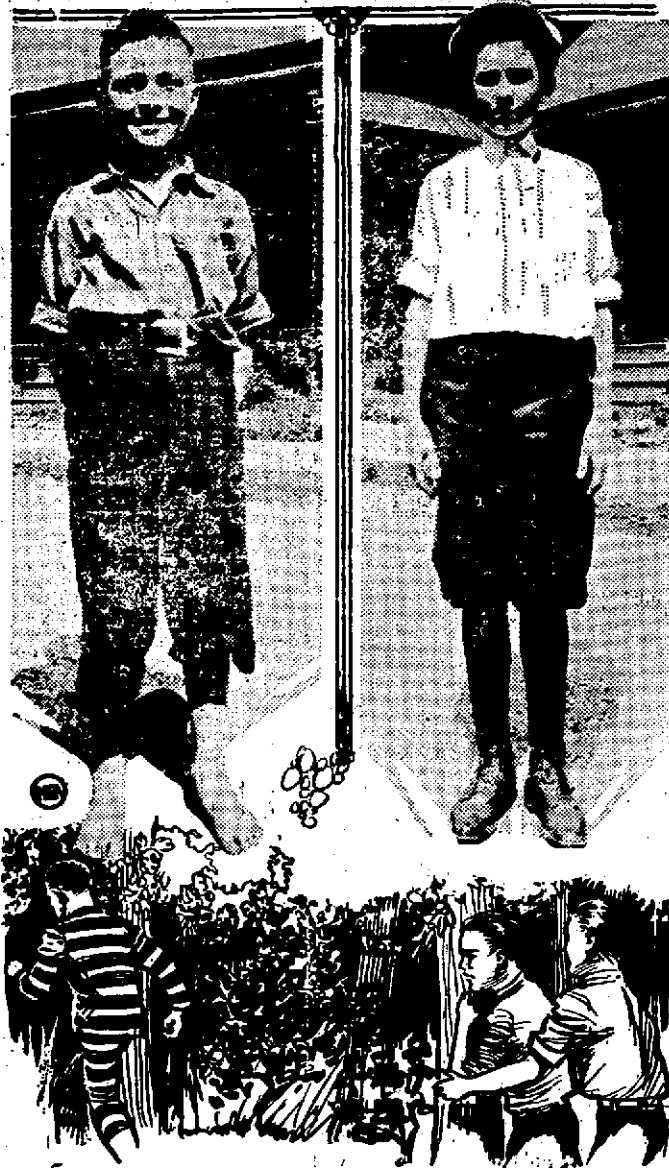

Bluffton—Chief of Police Henry Gehert chased a Fort Wayne hand bill distributor from here, after he had billed more than a square up town. An ordinance prohibits out-of-town firms circulating hand bills in the city.

## He'll Preside

When rural mail carriers meet in convention in Cleveland Aug. 24 to fight out the question of becoming affiliated with the American Federation of Labor, A. P. Lang, president of the organization will handle the gavel and see that each speaker speaks in his turn. Lang's home is in Pleasantville, O., where he "covers" his route each day. He is opposed to affiliation with the A. F. of L. He is serving his third term as president of the association.

## Boys Cause Criminals Arrest

While playing in the street near the jail Tommy Ford, 12, left, and Virgil Matthews, 15, sons of policemen, saw five men slug their jailer and escape from jail at Knoxville, Tenn. The boys raced with the convicts, two of whom were murderers, and stood guard over a house where the men took refuge until officers arrived. A reward is being collected for the boys.

## New Bryan?

The Rev. William Bell Riley, pastor of the First Baptist church of Minneapolis, is hailed as the successor to William Jennings Bryan as leader of the fundamentalists. At least, Maynard Shipley, president of the Science League of America, so regards him. Rev. Mr. Riley is in Los Angeles now, shaping a fundamentalist campaign there.

Peace and Safety:—Thou  
wilt keep him in perfect peace,  
whose mind is stayed on thee;  
because he trusteth in thee.  
Isaiah 26:3.Prayer:—Our Father, enable  
us to live in the constant as-  
surance that Thy Grace is suf-  
ficient for us.**The Trek to Florida**The trek to Florida continues.  
Scores of good Rush county folk  
have been lured from the good In-  
diana soil to the sand wastes of  
the southern sunshiny state.What's true of Rush county is  
true of every other county in In-  
diana and is true of most northern  
states. People are leaving the work-  
shops of the north for the play-  
ground of the south.Miami is said to have a perma-  
nent population of 160,000. Land  
values there, the Florida enthusiasts  
say, have reached the astounding  
figure of \$18,000 per front foot.Such prices are out of reason in  
a city of a hundred thousand when  
in comparison, for example, Cleve-  
land, O., with a population of one  
million, has only two small blocks on  
its principal street where land val-  
ues have attained such height.The money that has been used to  
inflate the values in Florida has  
been earned in the north. It was not  
"earned" in Florida, because buy-  
ing a lot one day and selling it the  
next at a profit is not "earning"  
money; nothing has been produced  
or nothing contributed for the bet-  
terment of society.Eventually—it is impossible to  
predict accurately the day or the  
month or the year—the "earned"  
money of the north will cease to  
flow into Florida. When it does, there  
will be no one else to pay the pro-  
fits. Then the bubble will burst, just  
as every similar bubble has been  
punctured. And those who bought  
last will be "holding the bag."**Pass It Along**The end of the vacation season is  
in sight. Many will be returning to  
their daily jobs soon; others have  
already returned.While away, vacationists surely  
learned something. Whether the trip  
was by automobile or train, some-  
thing new was seen. The keen ob-  
server saw more than the careless  
observer, of course, but everyone  
got a view of something different—  
something out of the ordinary.Those whose attention was at-  
tracted by anything different, who  
made a comparison in their own  
mind with similar things at home,  
and found them better, will be doing  
a public favor by passing it along.There is no community on earth  
that has a "corner" on all of the  
novel ideas in the world. Every  
one has something to recommend it.The place that adopts the good  
ideas that have been found workable  
is the one that gets ahead. It profits  
from the experience of others.Let's not be backward about put-  
ting to work any good suggestions  
that may be found elsewhere.**The Dunes Highway**Citizens of the Calumet region in  
northern Indiana are reported in  
newspaper dispatches to be literally  
up in arms over the announcement  
that the state highway commission  
has indefinitely postponed its plan  
to complete the Dunes highway.The impression the rest of the  
state has is that this particular re-  
gion has been selfish in its demands  
for state highways, seeming to for-  
get that the Calumet is a very small  
part of Indiana.

The state highway commission can

not cover the state with permanent  
roads in a day, or a year or a few  
years; it is a long and tedious pro-  
cess that requires time and patience  
on the part of citizens in every lo-  
cality who want the benefits that  
come from paved highways.Every section has to take its turn.  
The north has been complaining that  
it has not had its share, but central  
and southern Indiana people who  
have had occasion to drive through  
northern Indiana are convinced that  
the north is doing as well as any  
other section in obtaining permanent  
highways.There are plenty of people in  
eastern Indiana who think this sec-  
tion has been neglected but no one  
has been bombarding the highway  
commission and threatening it with  
dismemberment if it does not do the  
bidding of a small minority.**FIFTEEN YEARS  
AGO TODAY**From Daily Republican  
Thursday, Aug. 18, 1910Alfred Caldwell has tendered his  
resignation to Kennedy and Casady,  
the dry goods merchants, and  
has accepted a position with his  
son, Fred Caldwell, the undertaker.  
Mr. Caldwell's resignation brings to  
the close an activity of forty-five  
years in the dry goods business in  
this city.At the Muncie races yesterday  
Frank Lindsay started Redlock, by  
Anderson Wilkes in the 2:30 trot  
and landed second position with her  
in 2:24, the fastest heat of the  
race however was in 2:21, in which  
heat he got third. Clell Maple start-  
ed Dorothy C., in the same race and  
succeeded in landing third money  
with her.William Dagler has received word  
that he was appointed as one of  
the judges of all of the show horses  
at the county fair at Allentown, Pa.  
Mrs. Kate Brown, who has been  
the guest of her sisters, the Misses  
Anna and Alice Gore in East Third  
street, returned to her home in Cas-  
tleton, Ind., yesterday.Mrs. George Giffin, who resides  
south of the city, and Mrs. St. Claire  
Perry and son George, of Indianap-  
olis, have gone to Martinsville for  
a short stay.Miss Vera Clark, has been the  
guest of the Misses Clark in North  
Sixth street for the past few  
weeks, left yesterday for her home  
in Franklin Ky. Miss Eva Clark ac-  
companied her home for a visit.Mrs. Rachel Jones of Chicago  
came yesterday to make a visit with  
Mrs. T. M. Friend, her sister.Miss Olive Tylor of Jasper, who  
has been spending the summer with  
Miss Alice Winslip in West Fifth  
street, returned home yesterday.  
Miss Winslip accompanied her home  
and will also be a guest at Law-  
renceburg and Poseyville before re-  
turning home.Mrs. Joseph Ables was the victim  
of a fall this morning at her home  
in West Fifth street. She was hang-  
ing curtains in a bed room in the  
house and was standing on the fifth  
round of a step ladder, when in some  
unexplainable manner, she fell, strik-  
ing her hip against a bed in the room.Mrs. Sara Pond, who is ill at her  
home near New Salem, shows very  
little improvement today.E. M. Reddenbaugh finished  
threshing wheat on his farm south-  
west of the city today.Mr. and Mrs. Josiah Bishop and  
Sam Ryce and daughter Alma, and  
Mrs. Lou Ginn were visitors in In-  
dianapolis yesterday. They made the  
trip in Mr. Bishop's automobile.**The Hodge Podge**

A woman has bequeathed her brain

NEA Service WriterWASHINGTON.—Is the world  
in danger of working up to  
a larger population than it  
can support?—or, rather, more  
than it can support comfortably?  
Of course these it absolutely  
can't support will die. But a great  
many more than it can support  
decently may be able to eke out a  
bare existence, which is just the  
condition prevailing on some parts  
of the globe now.FOR some reason or other this  
has been a red hot topic of  
discussion in certain Wash-  
ington circles—biologists, farm  
experts, census workers, geogra-  
phers, historians and military men  
—ever since the war. What'smore, the historians say it crops  
up after every great war.  
Why is this?—right after a war?  
—when one would suppose the  
world would be thinking about re-  
plenishment of its human loss?ONE group of scientists, which  
poo-pooes the Malthusian  
theory, calls such worrying  
pure foolishness—an aftermath of  
war-bred hysteria.The other main group, to which  
most of the military men belong,  
repplies that all big wars are  
caused, primarily, by local over-  
crowding, which reminds people  
of the awful situation which will  
prevail when it's worldwide.With the scientists in such com-  
plete disagreement, any layman is  
at liberty to solve the problem for  
himself.**He Works**Donald Doid of Buffalo is secretary

in the burning of the mine buildings.Back in New York, the man yields  
to the blandishments of a young  
heiress who was instrumental in fi-  
nancing his mining venture, and who  
aided in making the trial marriage  
a failure. The actress returns to the

of Gasoline**"Civilization moves on wheels," says George  
Otis Smith, Director of United States Geo-  
logical Survey, in an article dwelling on the  
relation of petroleum to society.The accuracy of Mr. Smith's conclusion is  
illustrated by the published statement that 88  
million Americans enjoy the use of automobiles.  
During 12 months ending December 31, 1924,  
the number of registered motor vehicles in the  
United States increased by 2,427,758.The constant and rapid increase in the use of  
automobiles has created a demand for gasoline  
which could not be supplied under the old  
refining practices, even with our magnificent  
national production of crude oil. This problem  
would have been serious indeed had not the  
petroleum industry taken giant strides in in-  
creasing the yield of gasoline from a given  
amount of crude oil.In this important work the Standard Oil Com-  
pany (Indiana) has taken a leading part; in  
fact, this Company developed the first com-  
mercially successful cracking process to obtain  
a greater percentage of gasoline from crude oil.  
Today cracking processes are used quite gen-  
erally throughout the industry.The tangible result of this intensive and con-  
structive work on the part of the Standard  
Oil Company (Indiana) is reflected in published  
figures, revealing a 50% increase from 1918 to  
1924 in the amount of gasoline recovered  
from a given amount of crude petroleum.The intangible, but none the less direct, benefit  
of this effort of the Standard Oil Company  
(Indiana), is the present low price of gasoline.  
Except for the advanced work of this Company,  
motorists would be paying a much higher price  
for the gasoline they use. Of this achievement  
the Standard Oil Company (Indiana) is justly  
proud.This is but one of the many phases of the broad  
and comprehensive service rendered by the  
Standard Oil Company (Indiana) which reflects  
its benefits in so obvious a way as to have  
earned for the Company the confidence, respect  
and esteem of thirty million people in ten Mid-  
dle Western states.**Standard Oil Company**

## CARTHAGE SPECIALS BAT OUT A VICTORY

Defeat Westwood Cubs of Newcastle Sunday, 11 to 9—Score Six Runs in Seventh

### MANY PITCHERS ARE USED

The Carthage Specials battled out a victory over the Westwood Cubs of Newcastle Sunday at Carthage, by the score of 11 to 9. The visitors were leading 8 to 5 in the seventh inning, and had two of the Specials out, when the batting streak developed, and six runs went across the plate.

McFarlan gave way in the box to Reece and Shellhouse. Delashmit hurled five innings for the home team and Mathers took the box. Welch, who broke a finger the Sunday before while playing short stop, was placed in right field, and was cheered when he made an almost impossible catch near the foul line back of first. Craig nipped behind the bat and Binford, the bases.

The next game is not definitely known for Carthage, but it is probable that Raleigh will play there next Sunday. The score by innings:

Newcastle 000 232 110 — 9  
Carthage 003 200 600 — 11

### KEEPING ONE EYE ON THE SCORE BOARD

Yesterday's Hero: Freddy Lindstrom, the Giants kid infielder, drove in two runs with a double and a single and beat the Phillies, 3 to 2.

Tod Blankenship won his seventh game in a row for the White Sox when he beat the Tigers 3 to 2. Davis scored the winning run on Falk's sacrifice fly.

French tripped in the ninth with the bases filled and gave the Athletics a 9 to 5 victory over the Pirates in an exhibition game.

### Tennis War Not Ended

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Aug. 18—Bill Tilden hasn't passed up many chances to accept a fight from the United States Lawn Tennis Association. He jumps into them headlong and slides out of them with his head not noticeably bowed. In waging his warfare, Tilden probably goes on the assumption that there will be no penalty attached to a violation of the rules more painful than a slap at his pride and dignity. As long as he can remain the world's greatest player, he probably cares little for his political dignity.

The association found Tilden guilty recently of violating the amateur rule in allowing himself to be interviewed about the play in a St. Louis tournament but no penalty was meted out after he had promised that he would not cheat against the rule in the future.

The association may have room to believe that it has the champion bound and gagged for good, but Tilden will pop out again just as soon as things do not go to suit him.

When Babe Ruth, the biggest figure in baseball, violated the rule against barnstorming several years ago, he was suspended for almost one-third of the championship season and the blow to the Yankees and the other teams in the league was terrific.

The tennis association would have lost no prestige and it would have gained more international respect if it had handed Tilden some kind of a suspension instead of a clean bill of health.

## AMERICAN FAILS IN CHANNEL SWIM EFFORT

After Gallant Effort, Miss Gertrude Ederle, Overcome by Sea Sickness, Abandons Attempt

### SAVED BY EGYPTIAN SWIMMER

Aboard the Official Tug, Lamartine, Boulogne, France—After a gallant effort declared by experts to be the greatest nine hour channel swim on record, Gertrude Ederle, overcome by sea-sickness, threw up her arms and abandoned her attempt to swim from Cape Griz Nez to Dover, at 3:58 p. m. today.

The plucky American girl had battled her way through rough seas and high waves to within six and one-half miles of the English coast when the salt water she had swallowed made her suddenly ill.

After she collapsed the giant Egyptian swimmer, Helmy, who earlier this month saved Lillian Harrison of Buenos Aires, under similar circumstances, seized Miss Ederle and with powerful strokes, brought her to the official tug.

When the swirling channel tide and choppy sea, coupled with the impossibility of completing her task, forced the American girl to give up, she had covered a course of about 30 kilometers and was about 12 kilometers, or approximately 700 miles off the English coast.

The collapse of Miss Ederle, who was regarded to have the best chance of any swimmer who has made the attempt against the icy currents and treacherous tides of the channel since Charles Toth, another American, succeeded in September 1923, came as a blow to the swimmer's admirers. Her physique, pluck and condition had led all to suppose that she would succeed in swimming the channel, although the waters never have been beaten by a woman.

### ASK REASSESSMENT

Indianapolis, Ind., Aug. 17—Taxpayers of Washington township, Marion county, today appealed to Harry Dunn, county auditor, for a reassessment. They claim the assessments of the township are unreasonably high in comparison with other townships of the county.

white washing. It looked very much as if the association was tickled to death to find a way clear to keep Tilden eligible for the Davis Cup matches.

The defeat of Miss Helen Wills, the national champion, by Miss Elizabeth Ryan, the former California girl, was startling not because Miss Wills had been playing so exceptionally well up to that time. Critics who had been watching her game said she looked better than at any time in her career.

The young champion, in her characteristic way, said it was nothing but better tennis on the other side of the net that caused her defeat. But it was learned later that she was not in the best of physical condition, that she was suffering from a heavy cold and that she didn't have strength enough to speed up on a soggy, water-soaked court.

Bill Tilden, who saw the match, said she was not in good physical condition but that she was also guilty of poor tennis strategy in not playing the net for Miss Ryan's soft chop strokes.

Miss Ryan is a great player—particularly when the conditions are such as to fit her style of game. For years she has been rated next to Mlle. Lenglen as the greatest player in Europe.

It does not follow because Miss Ryan won from Miss Wills that the American champion would not be a match for Mlle. Lenglen.

Vinnie Richards beat Tilden in one of the earlier matches of the season and no critics wrote Richards in as the probable winner of the championship this year.

## HANCE AND WIFE ARE BURIED TODAY

Continued From Page One  
were attempting to trace a man in a red touring car and two small boys who saw the shooting at close range.

The touring car stopped a few yards from the scene of the shooting to avoid a collision with Hance's auto, and that of the outlaws.

The man sped away after the shooting and has not been located. Wolfe's attorneys believe he can establish definitely that Wolfe was not among the assailants of Hance and his wife.

Agents of the federal government, operatives of the Indiana Bankers' Association and private detectives have joined local police in the attempt to trail Anderson.

While some of the investigators said Anderson might still be in Muncie, their belief was discredited because of the thorough manner in which the city has been searched.

Numerous reports that Anderson has been sighted in Indiana cities or adjoining states have caused renewed excitement but all reports have failed to bring any tangible clue to the hiding place of the master murderer.

Another angle was injected when Harvey Wagoner, insurance man of Anderson, Ind., told authorities three men forced him at the point of a revolver to drive them to Cincinnati, O., last Saturday night.

A new theory as to the motive for the shooting is advanced by some of the investigators, who say Anderson feared Hance "knew too much" and would turn him in as he had Chapman.

The general belief is that Anderson with no thought of his own safety slew Hance and his wife in vengeance for the betrayal of the prince of bandits.

### Implicate Wolfe

Crawfordsville, Ind., Aug. 17—Police of Crawfordsville today implicated Charles "One-Arm" Wolfe, suspect in the Hance murders at Muncie, in the robbery of the Shermandale garage last winter.

Authorities said they had an overcoat worn by Wolfe on the night of the robbery.

Kempton—Charles Dunn was kicked in the head by a vicious horse and is in a serious condition. He was attempting to catch the animal.

## ELKS OF INDIANA IN ANNUAL CONVENTION

First Event on Program Today is Dedication of New \$300,000 Home at Valparaiso

### CONTEST, PARADE WEDNESDAY

Valparaiso, Ind., Aug. 18—(U.P.)—Elks of Indiana met here today for the annual state convention of the antlered order.

Entertainment of the visitors was in charge of the Elks' lodge number 500 of Valparaiso. Distinguished guests included Judge William Atwell, grand exalted ruler of the order, from Dallas, Tex., other national officers, and Garnet Fleming of Shelbyville, president of the Indiana Elks' Association.

The first event on the program was the dedication of the new \$300,000 home of the local lodge. Business sessions were presided over by Fleming.

Election of officers and adoption of resolutions is scheduled for Wednesday morning. Five teams are to compete in the ritualistic contest work Wednesday.

The lodges at Muncie, Vincennes, Gary, Lebanon and Noblesville will be represented in the contest.

On completion of the contest the annual parade will be held. The final day of the convention will be given to a picnic at Elks' lake, near Valparaiso, Thursday.

Band concerts, barbecue dinners, auto trips through the Calumet district will be included for the visitors.

Laporte—Laporte and surrounding towns are to have air connections with Detroit soon. A company has been formed, and a six passenger plane purchased.

European women, upon coming to America, quickly revolutionize the manner of things they buy for their tables and their homes. An authority has estimated that foreign-born women ask for goods by their advertised names within two weeks after they have begun housekeeping in America.

They are quick to sense that in the new world the good things are advertised, and that unknown goods in unknown stores are likely to be of unsatisfactory quality.

As the European woman quickly learns, American advertising in the evening papers is for the buyer's protection.

Grand Daughter of Edith Rockefeller McCormick Wins in Controversy Over \$7,500,000 Trust Fund BALTZELL HAS JURISDICTION

Indianapolis, Ind., Aug. 18.—(U.P.) Anita Osner, young daughter of Matilda McCormick Osner of Berne, Switzerland, scored a victory today over her grandmother, Edith Rockefeller McCormick, in a suit in federal court involving \$7,500,000 of a trust fund created by John D. Rockefeller.

Judge Baltzell overruled a motion signed by the grandmother and the Equitable Trust company of New York, trustees of the fortune, in which they sought to quash service of process against them. The grandmother claimed the court had no jurisdiction in the case. The ruling of Judge Baltzell brings the case within jurisdiction.

The suit was brought for Anita Osner by Harold McCormick, her grandfather, to prevent the trust company from giving the \$7,500,000 to the baby's grandmother as income derived from 12,000 shares of stock of the Standard Oil company of Indiana, set aside in trust funds in 1917 by John D. Rockefeller.

MEETING CALLED OFF There will be no meeting of the Richland township Farm Bureau this month, according to an announcement made by the leaders of the bureau. The regular meeting date was to have been Thursday evening of this week.

TO APPEAL Indianapolis, Ind., Aug. 18.—The Butler-Fairview civic association today prepared an appeal to the state tax board from the action of the Marion county board of review in refusing to change an order for a 20 per cent increase on real estate in Washington township.

Mrs. Pearl Sowards, 18, of Kansas City, Mo., is held on a charge of murder following the death of Miss Olga Elnenstein, 35. The two were in the office of a friend and Mrs. Sowards stabbed Miss Elnenstein. She says she did it in self-defense.

## SEARCH FOR AVIATORS ENDS

All Clues Indicate They Were Swallowed up in Lake Michigan

Chicago, Aug. 18.—(U.P.)—Clues indicating the three young aviators missing since they took off for Detroit July 28, may have been swallowed up by Lake Michigan caused searchers to abandon their hunt today.

A swimmer at Gary Ind., reported he had seen what appeared to be a wrecked airplane submerged in the water a quarter of a mile out in the lake. Residents of Gary reported seeing an airplane, apparently in distress flying over the city on the day the three Chicago boys started for Detroit.

The missing aviators—Morris Gathereoul, Eugene Coultier and Earl P. Banker—were hunted by airplane, automobile and motor boats

in the hope that they had been forced down on land and were still alive.

Lebanon—Twenty seven years ago Clayton Rosencrance and his buddy, Ora Hollingworth, parted in the Philippine Islands, having served together in the Spanish-American War. After the years of separation Hollingworth walked into Rosencrance's undertaking shop, and each recognized the other. Hollingworth is still in the army.

Greensburg—A hoisting engine was necessary to lift a horse belonging to John Castor from a well. The animal fell through while hauling logs.

Alexandria—A youth, driving home in the morning after working all night at Muncie, went to sleep in his automobile. The machine crashed into a bridge, but the youth was unhurt.

Comfortable

The label of not a very high collar is joined to the most high collar and forms one of the most approved bits of neckwear. The collar is very soft and pliable and does not interfere with the comfort of the wearer.

All Over Indiana

Gas City—"Gas City—The City With a Future," was settled on as a slogan by the Business Men's Association. W. O. Swan, writer of the slogan, was awarded a \$100 prize.

Muncie—"Bandits," was the report that Policemen Collins and Davis received. Racing to the locality reported they found a group of Boy Scouts playing games.

Bloomington—"Pay before you enter," will be the slogan at Indiana University this fall. Students will not be allowed to register until after they have paid their fees.

Elwood—"The Sheriff of Elwood," was the address on a post card, delivered to the Chief of Police. The communication was from Joseph Fenster, of near Peru, and told of an automobile abandoned near his farm. The owner was notified.

# SERMON BRINGS OUT THREE MAIN IDEAS

Rev. E. G. McKibben Uses For His  
Sermon Topic Sunday "By Grace  
Have Ye Been Saved"

AT FIRST U. P. CHURCH

He States Doing More Than is Re-  
quired is a Theory Found Only in  
Apostate Church Theology

The sermon at the United Presby-  
terian church on Sabbath morning  
was delivered by the pastor, the Rev.  
E. G. McKibben, from Ephesians 2:5.  
"By grace have ye been saved."

The speaker said in part:

"It would seem strange that Paul  
should think it necessary to write  
this to the Ephesians. It is still  
more strange that any minister in  
the 20th century should select this  
text for a sermon. But then as now,  
despite all that may be said, some  
one will expect to be saved in some  
other way. The little parenthetical  
statement of six words, only three  
in the original Greek, contains three  
important ideas.

"First, it calls attention to the  
great need of humanity. When we  
say that we are saved it implies that  
we were lost. Salvation is the great  
need of every human being who has  
not been saved. Until that has come  
he is in a lost state. This lost state  
is a condition of nature. The first  
man fell into God's disfavor and he  
passed on to all succeeding genera-  
tions this disability. In Adam all  
died. The fountain was corrupted  
and the entire stream became im-  
pure. All are lost, ruined, dead, un-  
rescued by redeeming grace. Then  
evil character comes from this evil  
nature. As soon as he sinned the  
first man showed evidences of some-  
thing wrong. The first born of the  
race was a murderer. In fact, he was  
the first modernist, a man who  
thought that he was free to worship  
as he pleased rather than as God  
pleased. And doom followed sin."  
"Death passed upon all men for that  
all have sinned." Spiritual death is  
separation from God. And eternal  
death is eternal separation from  
God. Hence to be saved is the on-  
ly thing needful.

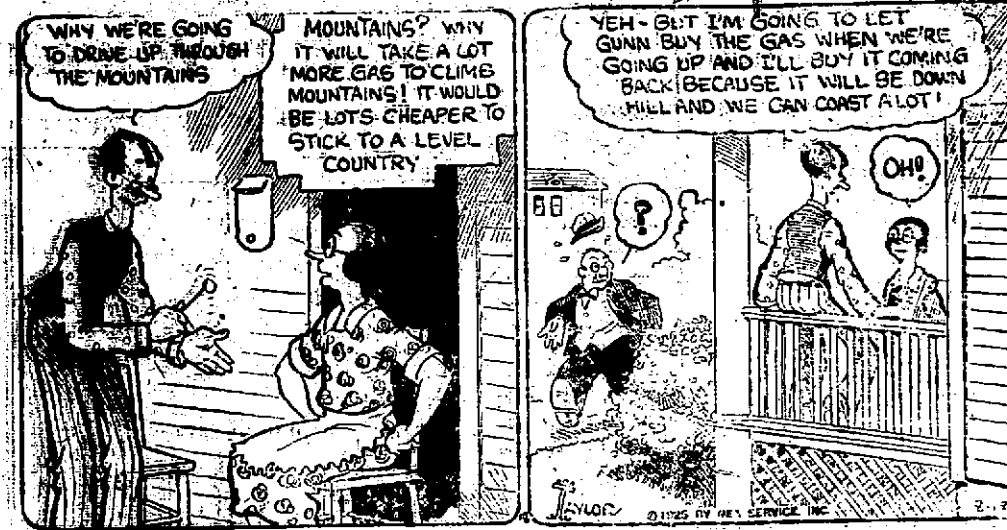

"Second, this need has been met  
at least for some. To the Ephesian  
Christians Paul could say 'By grace  
have ye been saved.' And it is true  
also for every true Christian, born  
of His Spirit, washed in His blood.  
It is a present reality. Paul does not  
say 'Ye may be saved, or Ye can be  
saved, or if you do so and so ye  
shall be saved. Literally it may be  
rendered, 'By grace ye are having  
been saved.' Salvation is not our act  
but God's act. And it is the act of  
a sovereign. It is a new birth. It is  
life from the dead. It results in a  
new creature. It has a practical  
bearing also. Such a radical change  
cannot take place in the heart and  
not result in a change in the outward  
life. Note the change in the life of  
Paul, and the Philippian jailer, and  
Zacharias following their conversion.  
Salvation is an ingrafting into  
Christ. The wild olive branch is  
grafted into the tame olive tree.  
Henceforth it bears tame olives. The  
alien is adopted into the family of  
God and as a result received the  
spirit of sonship. Henceforth he tries  
to conduct himself as is becoming to  
a member of the household of faith.  
For such an one there is a future  
development. Progress will mark his  
steps. He will grow in grace and in  
knowledge. He will advance in spiri-  
tual stature. He goes from strength  
to strength. He studies to show him-  
self approved to God. He runs the  
race set before him. Waiting on the  
Lord he renews his strength and  
mounts up with wings as an eagle.  
This is the picture of one saved by  
grace.

"Third, God has a plan by which  
he applies the remedy. He saves men  
by His grace. On the basis of the at-  
tonement he can bestow the bless-  
ings of salvation on lost men. Sal-  
vation is not of works lest any man  
should boast. It is all of grace that  
God may have the glory. A convicted  
traitor about to be executed for  
his crime is pardoned by the Presi-  
dent. He is saved by grace. And that  
is the spirit of the text. Human  
worth or merit or goodness has  
nothing to do with it. It is of grace.  
It is through faith. The book of the  
Romans was written to show that  
we are saved through faith alone and  
apart from works of law. To the  
jailer Paul said, in response to the  
query 'What must I do to be saved?'  
'Believe on the Lord Jesus Christ,  
and thou shalt be saved.' Faith al-  
one saves. Good works or service or  
obedience has no part in it. This is  
the work of God that you should be-  
lieve on the name of His Son. It is  
a gift. All that God bestows

## MOM'N POP

comes in the same way. His Son is  
a gift of His grace. So is repentance.  
So is remission of sins. So is peace  
of mind. So is the entrance into hea-  
ven. So are the rewards of the glory  
world. He is the author and the per-  
fector of our faith. The text smashes  
it all up in a nutshell—'By grace  
have ye been saved.' Two things fol-  
low and must be said.

"The faith that saves is the faith  
that works. James states it in this  
way, 'Faith apart from works is  
dead.' Faith is a living thing and is  
found only in the heart of those who  
have been redeemed. The problem of  
the ministry should be, not to incite  
to activity, but to direct the activi-  
ties of saved men and women. Paul  
said 'His grace bestowed on me was  
not in vain for I labored more abun-  
dantly than them all.' His grace is  
given that we may work.

"The last thought is All reward  
is of grace. You cannot earn any-  
thing from God. Doing more than is  
required is a theory found only in  
the theology of an apostate church.  
The Bible says 'After we have done  
all we are still unprofitable servants  
and have done only what was our  
duty to do.' Until you love God with  
all your being and your neighbor as  
yourself you have earned nothing.  
All reward is of grace."

## Notice of Election to Members of the Burley Tobacco Growers' Cooperative Association

TO OUR MEMBERS—

Pursuant to action of the Board of Directors, you are hereby notified  
to assemble in mass meetings at the Court House in the county in which  
you reside, SATURDAY, AUGUST 22nd, 1925, at 2 o'clock P. M. for the  
purpose of nominating candidates to be voted for as delegates in the  
primary election to be held at the Court House from the hours of 8 o'clock  
A. M. to 4 o'clock P. M., Saturday, September 19th, 1925. The delegates  
elected at said primary to meet at your district convention to be held at the  
County Seat in the county casting the largest number of votes in each dis-  
trict, at 2 o'clock P. M., Monday, September 21st, 1925, at which time said  
delegates will select a Director for your district.

The basis of representation in the election of Directors shall be as  
follows: The unit shall be one full vote for each one million pounds of  
tobacco delivered out of 1924 crop of tobacco to the Association by such  
county. When the quantity of tobacco so delivered runs into fractional  
parts of one million pounds, then the representation of such county shall  
be in exact proportion to the number of pounds so delivered.

Twice as many candidates as there are delegates to be selected in  
the primary election of September 19th, 1925, should be selected at the  
mass convention of August 22nd, 1925, and the names so selected in each  
county will be printed upon the ballot for that county, and a ballot mailed  
to each member.

Each member is entitled to one vote, regardless of the number of  
acres of tobacco grown by him or her; and the ballot voted by him or  
her must be signed by him or her and deposited with the officers of the  
election, or mailed to said officers before the hour of 4 o'clock P. M. Sat-  
urday, September 19th, 1925.

Mass meetings of August 22nd, 1925, will be called to order by a  
member of the Association, designated by the President of the Burley  
Tobacco Growers' Cooperative Association, and said meeting will select  
their own officers, including three competent members to conduct the pri-  
mary election of September 19th, 1925.

Through the chairman and secretary, the names of all the candidates  
selected to be voted for in the primary election of September 19th, 1925,  
and the names of the officers selected to conduct said election will be im-  
mediately certified to the Secretary of the Burley Tobacco Growers Co-  
operative Association, Lexington, Ky. The name of the person elected  
Director by the meeting of September 21st, will be certified to the Presi-  
dent of the Burley Tobacco Growers' Cooperative Association by the chair-  
man of said convention immediately after his election.

Besides ballots mailed to each member of the Association, the election  
officers in each county will be provided with ballots to the number of  
twenty per cent of the membership of each county, and in the event a  
member appears at the election unprovided with a ballot, said officer will  
deliver to him or her one and only one ballot; but each grower is hereby  
urged not to lose or misplace the ballot mailed to him or her, but to mark  
and vote that ballot either in person or mail it to the election officers before  
four o'clock Saturday, September 19th, 1925.

By order of the Board of Directors of the Burley Tobacco Growers'  
Co-operative Association.

JAMES C. STONE, President and Gen. Mgr.  
H. LEE EARLEY, Secretary and Treasurer.

## To Those Interested in the Development of Rushville:

We are arranging to finance the building of a number of new homes to relieve  
housing conditions in Rushville and to care for the increase in population that is  
sure to come this year. Frankly, to do this and to serve Rushville as we have  
for 35 years

For these we pay 6% on sums of \$100.00 or over from the day that we receive  
them. We take no "long chances." Every loan is a unit. We never advance  
over 60% of cost on new property. And your money is protected in every way  
possible through exceedingly strong examinations through the State Banking  
Department.

This is the Only Investment that you can conveniently make where you can see  
where your money is being invested. All that you have to do is to examine the  
Mortgage Record in the County Recorder's Office, for we loan on first mort-  
gage only.

THINK THAT OVER and then come to our office for further details.

## ELEVEN ACCIDENTAL DEATHS IN INDIANA

Accidents Take Heavy Toll in State During Past 24 Hours, Reports Show Today

### FOUR AUTOMOBILE VICTIMS

Two Miners Killed in Fall of Slate—Swimmer Drowns at Winona Lake and Child in Cistern

Indianapolis, Ind., Aug. 13—(U.P.)—Eleven persons met accidental deaths in Indiana during the past twenty-four hours, reports showed today.

Four were killed in auto accidents, three in a mine accident, two drowned, one was sealed to death and one was crushed under a pile of lumber.

Lulu Burt and Marie Crot, police-women of Chicago, were killed when their auto was struck by a Chesapeake and Ohio train at North Judson.

Harry Smith, 37, Orville Fritz, 35, and Willis Lays, 35, were killed in a fall of slate at a coal mine near Petersburg. The three men were operating a cutting machine when the roof above them collapsed.

Sylvester Nelson, 73, an inmate of the Madison county infirmary, was killed by an interurban car near Muncie.

Albert Borradaile, 72, of Camden, O., died in a hospital at Richmond from injuries received when his auto was struck by an interurban car near Richmond.

Webster Daniel, 18, Chicago, drowned while bathing at Winona Lake and Margaret Graves, 5, of Hammond, fell through the top of a cistern and drowned.

Henry Hoffman, 58, factory worker, was crushed to death by the shifting of a pile of lumber at the Globe-Boss-World furniture factory at Evansville.

Falling into a tub of hot water, Mary Helen Klotzner, two years old, was sealed to death at Indianapolis.

Eight others were injured in accidents yesterday. Walter DeLong, 29, of Indianapolis, fell beneath a train at Terre Haute and was probably fatally hurt.

DeLong was "bumming" his way back to Indianapolis and tried to hon a Big Four train.

Virginia McConnell, of Indianapolis, was in a serious condition in a hospital at Lafayette from injuries received in an auto accident when her car skidded and overturned in fresh gravel. Six other occupants of the car were slightly hurt.

Muncie—"Why have drawers in desks of city councilmen?" asked the citizens. A table was taken from the council chamber to police headquarters. The drawer was pried open, having been locked since 1904.

## ECZEMA

You will be compelled to admit that the results of S.S.S. are really amazing!

MANY people imagine that eczema or tetter needs only some external application on the skin in order to get relief. This is because the attention of the sufferer is so violently directed to the intense burning and itching which accompanies this disease. Try as they may—permanent relief will never be theirs until the disease laden blood is thoroughly cleansed.

We know there is one thing that stops eczema and that is more red-blood-cells! S.S.S. builds them by the million! You can increase your red-blood-cells to the point where it is practically impossible for eczema to exist. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it. Skin eruptions, eczema, with all its fiery, skin digging torture, and its soul-tearing, unbearable itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting giants of Nature! S.S.S. builds them by the million! It has been doing it since 1826.

S.S.S. is one of the greatest blood-cell builders, blood-cleansers and body strengtheners known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. S.S.S. contains only vegetable medicinal ingredients. Because S.S.S. does build red-blood-cells, it rids eczema, clears the skin, builds firm flesh, fills out hollow cheeks, and gives you that more up and going appearance.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

## EXPLORER STARTS EXPEDITION FOR STRANGE COUNTRY WHERE MEN ARE SAID TO HAVE TAILS

Oakland, Calif., Aug. 13—There's a band where humans have tails and birds know chemistry and build their own incubators.

And H. A. Snow, curator of the Oakland Museum and world famous as a big game hunter and wild life movie producer, is preparing an expedition to that region, to stalk both in their natural habitat and, through movies, tell the world about them.

Snow's big game hunt through Africa, where he successfully shot with guns and camera, is still attracting attention as a cinema thriller. Stomping elephant heads and chasing giraffes in flivvers were some of the high spots.

The trip of Snow and his son, Sydney, through the arctic regions, replete with discovery of bodies of long lost explorers, with hand-to-hand fights with polar bears and with frail boats battling whales is also holding attention through the movieized diary being shown.

But neither of these thrilling expeditions is just up to the standard of accomplishment that Snow and his son hope to set.

"Every couple of years, there comes word of ape-tailed men from the South Seas," says Snow. "To date, though, nothing corroborative has been brought out by the several expeditions going in search of these tribes."

"With the evolution question now almost a national issue there is more than usual interest in tail-bearing humans. We have been gathering information for years, and believe we shall find not mere individuals possessed of caudal appendages, but an entire tribe so distinguished as marked."

And the birds that build their own incubators?

"It is the calayan or moundbird—

er, a rare variety of the megapode species that is scattered through the Pacific island districts," explains the curator-explorer.

"They are the size of turkeys and somewhat of the same order. They live in colonies, and even build a community incubator to hatch their young."

"With their powerful feet, the females build huge mounds of mud and vegetable matter—mounds 50 feet in diameter and five or six feet high. The top of these heaps are

hollowed, so they will catch rainfall. The eggs are carefully placed in beads dug under the mound. Rain starts decay of the vegetable matter in the mound, and the resulting fermentation generates heat to hatch the eggs."

"Sanitation is also known to these birds. Each night they return to the mound, dig out the eggs for a short airing, then carefully replace and cover them, always with the air-chamber uppermost."

"In this manner, the entire incubation process is carried out. When the young emerge from the shell and clamber out of the mound, they are well fledged and can even fly a little."

These are but two of the rarities the Snows seek to bag with gun or camera during their next expedition. But the ape-tailed man and the bird who knows chemistry are sure to be the stars of the whole collection.

## FULL POLICE HONORS GIVEN TO POLICEWOMEN

Mrs. Lulu Burt and Miss Marie Crot Are Killed in Grade Crossing Accident at North Judson

### FINE RECORD IN CHICAGO

Chicago, Aug. 13—(U.P.)—For the first time in history full police funeral honors may be accorded two Chicago policewomen, killed in a grade crossing accident at North Judson, Ind.

The dead policewomen are Mrs. Lulu Burt, 50 and Miss Marie Crot, 38. The former had distinguished herself numberless times by skillful detective work and through her handling of women bandits. The latter made a name for herself with the Chicago detective bureau by using her charms to trap "boulevard rams" and "motor morons."

Almost daily Miss Crot drove to police headquarters with some mail "masher" who had "poked her up" on a street corner only to have a gun thrust in his ribs and hear himself ordered to drive at once to the police station.

Mrs. Burt and Miss Crot had been connected with the Chicago police department for 13 years. They were on their vacation when a train struck their automobile near their summer cottage late yesterday afternoon.

### FAKE SOLICITORS

Indianapolis, Ind., Aug. 13—Harry Dunn, treasurer of the Republican city committee, today issued a warning against fake solicitors. For the committee, Dunn said unauthorized persons were asking contributions to the Republican fund.

Marion—Boys and Girls are looking rather long-faced these days. The official list of books for the school year has been given out to teachers.

## USE OF ELECTRIC POWER ON INCREASE

Consumption and Production, Both in Manufacturing and Domestic Use, is Heavy

### STATE COMPILES DATA

Indianapolis, Aug. 13—(U.P.)—Production and consumption of electric power in Indiana continues to increase at a rapid rate, according to officials of the Indiana Electric Light Association.

Figures made available by the department show that the state is using more electric current in manufacturing and in the home than ever before.

In May, Indiana electric utility companies produced 111,716,000 kilowatt hours, an increase of 13 percent over May of the previous year. In June the percentage of increase

over a year ago was 17 percent, the total output of current being 112,432,000 kilowatt hours.

Practically all of this power was generated in steam plants, there being comparatively little water power available in this state during the summer months.

The electric plants consumed 109,610 tons of coal in June, much of it being Indiana coal.

## ONION GROWERS TO COOPERATE

Those in Nine Indiana Counties Will Continue Pool Plan

Warsaw, Ind., Aug. 13—(U.P.)—Onion growers of nine counties of north central Indiana who produce the bulk of the crop in the middle west have decided to continue the cooperative selling of their products.

Last year many members of the association experienced heavy losses because of crop failure and the importation of onions from Spain and Egypt.

This year with the crop prospects cut because of late frosts and dry weather the price of onions is higher than in several years.

## What Is Disease, Anyway?

Chiropractic Health Talk No. 220

By H. V. McCully, D. C., Ph. C.

We live in an age which demands brevity of speech. Because this has found expression in a series of names, each of which denotes a specific collection of symptoms of human ills, we are apt to lose sight of the fact that "disease" simply means dis-ease.

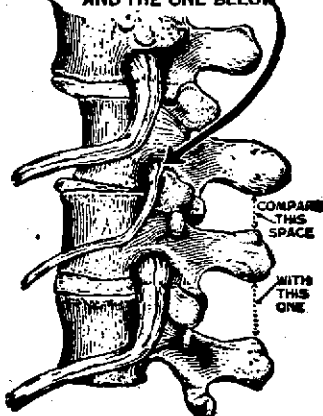

Worse than that, we seldom stop to consider that widely varying manifestations of disease may, and do, spring from a single cause, and as a result there is too much treatment of symptoms — too little correction of causes.

The cause of dis-ease is spinal interference with the flow of vital energy from the brain, through the nerves, to various organs. In the case of Mrs. Allen a simple interference created symptoms indicating four distinct and serious "diseases." Spinal adjustments led to the disappearance of them all.

## Almost Everything Was Wrong!

"In February, 1922, my wife had a general nervous breakdown, kidney trouble and high blood pressure. She was unable to do anything — just gave up and felt she would never be any better. We called a medical doctor, who said she had leakage of the heart and must be very quiet. She got no better and was advised to try a chiropractor. After several adjustments she was somewhat better. She continued to improve, became able to do her work, and was dismissed in October, 1922. We cannot praise Chiropractic too highly." — Mr. Samuel Allen, Chiropractic Research Bureau, Statement No. 2112-M.

## Perspiration—Dust

The two worst enemies of your clothing. Perspiration makes the cloth decay and deteriorate in other ways. Dust grinds the fibres and a suit cannot long stand up under a combination of the two unless you take good care of it. It costs little and means so much in the wear and appearance of clothing to have them dry cleaned often.
